

High Yield / Distressed Fixed Income Broker

Position type: Internship / Full-Time

Job summary: Sales and sourcing of fixed income securities

Compensation description: Negotiable

Job description: The individual would ideally have been previously CF30 authorised. In a small set up as our firm, the individual would be exposed to a natural spillover into areas of research, trading and related settlement, with no specific focus on any of these areas. Desirable geographical focus and language skills: Europe (with greater focus on Germany and/or Spain). The ideal candidate would have a transportable client base and experience in any of the following:

- Distressed/Defaulted Debt
- HY, EM or Convertible Bonds
- Relative Value / Capital Structure Trading
- Bankruptcy Claims
- Loans and NPLs
- Structured Finance (ABS, RMBS, CMBS, CDOs, CLOs, Synthetic CDOs & other structured products)
- Unlisted Equity
- LPs, Side Pockets
- Restructuring

Firm description: We are an innovative and fast-growing independent and regulated investment boutique in London, specialised in trading structured products, high yield bonds, and distressed/defaulted/illiquid fixed income securities. Our multi-cultural high calibre professional team is focused on defaulted, distressed and illiquid markets in several jurisdictions. The team's background is investment banking, legal, sales and quant. We offer an excellent opportunity for the right candidate to thrive in a team environment with an aggressive payout and compensation package.

Candidate requirements:

- Eligible to work in the United Kingdom
- Entrepreneurial spirit as well as attributes of a team player with a strong ability to multi task and work under pressure
- Min 1 year of experience in an investment bank, financial brokerage or fund management
- For senior position: ability to build and manage a desk
- Think far out of the box; sheer stamina to succeed
